Career Objective

Full Stack Developer with hands-on experience building and deploying MERN applications. Skilled in developing scalable APIs, responsive user interfaces, and real-world projects. Seeking an opportunity to contribute to production-level systems while continuously improving technical and problem-solving skills.

Education

Bachelor of Science (B.Sc)

2017 – 2023

Indira Gandhi National Open University

Training and Internship

Full Stack Development Training (MERN Stack)

May 2024 – Present

Prototype, Kozhikode

- Built a strong foundation in full-stack development using MongoDB, Express.js, React, and Node.js.
- Developed REST APIs, implemented authentication, and managed frontend state.
- Practiced debugging, clean coding standards, and version control using Git.

Skills

Frontend: React, Next.js, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, REST API Development

Databases: MongoDB, PostgreSQL

Tools & Platforms: Git, GitHub, Postman, AWS EC2, Vercel, Figma

Core Concepts: Data Structures, Problem Solving, API Integration

Professional Skills: Communication, Collaboration, Leadership

Projects

[Najath Peruvallur Website](#)

2026

Tech Stack: React, Tailwind CSS

- Revamped the existing institutional website, improving UI/UX and overall performance.
- Implemented a responsive, mobile-first design for better accessibility across devices.
- Improved content structure for clearer navigation and user experience.

[be.sky](#)

2025

Tech Stack: MongoDB, Express.js, React, Node.js, PostgreSQL

- Developed a full-stack e-commerce platform with authentication, product management, and cart functionality.
- Built RESTful APIs to handle user, product, and order operations.
- Integrated frontend and backend with secure API communication.
- Managed database schema design, validation, and error handling.
